Declaration of Alexander H. Spiegler

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

I, Alexander H. Spiegler, registration number 56,625, do hereby state as follows:

- 1) I was previously the attorney responsible for prosecuting the above-captioned application. In addition, I communicated with the inventor's legal representative regarding correspondence from the United States Patent and Trademark Office (PTO) when received by my firm, Hunton & Williams LLP.
- 2) I am an associate in the law firm of Hunton & Williams LLP, and I am familiar with the firm's docketing and in-coming mail procedures. To the extent I may not be completely cognizant of the applicable procedures for the present case, I have consulted with individuals at my firm responsible for these duties to become familiar with the procedures.
- 3) My firm, Hunton & Williams LLP, is currently prosecuting this application. The mailing address for all correspondence is the same address listed on the Decision that was allegedly mailed on September 8, 2006. Our docketing department enters into a log all in-coming mail for each day. I have reviewed a copy of the log entries from September 6, 2006 thru December 7, 2006, which is the period in which Hunton & Williams would have

received the Decision had it been mailed on September 8, 2006. The log entries reveal no entries for the above-captioned application.

- 4) Our docketing department also enters all in-coming mail from the PTO in its docketing system. Had my firm received the Decision, the response due date would have been entered into the docketing system for November 8, 2006. I have reviewed a copy of the master docket report for the period of November 4, 2006 thru November 8, 2006, and discovered that no response due date was docketed for the above-captioned application.
- 5) Finally, I personally reviewed the file for evidence of a paper copy of the Decision and found none.

I further declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under section 1001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the application or any patent issuing thereon.
